

GLOBAL TRADE - FUTURE OF DOING BUSINESS

November 10, 2016

Exporting Best Practices & Importing into the U.S. Workshops

PROGRAM DESCRIPTION:

- **Exporting Best Practices** - Want to know if exporting is a viable expansion option for your product line? This workshop will explain the export cycle and provide you with the tools and resources to start and/or expand your export business.
- **Importing into U.S.** - Are you familiar with the legal aspects of importing into the U.S.? Do you know when and how to use a customs broker? Learn the essential steps involved when importing products into the U.S. and how you can overcome barriers when importing.

WHO SHOULD ATTEND?

- These workshops are for new and experienced exporters, ideal for entrepreneurs, marketing and sales management staff, export/import operations personnel, purchasing, logistics and any other personnel within the supply chain, business faculty, and college students.

BENEFITS:

- Profitable for businesses of all sizes.
- Sales grow faster, more jobs, and employees earn more.
- Importation of products brings world to your doorstep.
- Importing products such as raw materials or unfinished goods can raise manufacturer's bottom line.

REGISTRATION

Fee: \$70 Per Workshop
